

# Refrigeration Compressor Market size to grow by USD 29.48 Bn by 2030 | Driven by the growing demand for Commercial

*The Refrigeration Compressor Market size was valued at USD 19.56 Bn in 2021 and is projected to reach USD 29.48 Bn by 2030, growing at a CAGR of 5.37%.*

NEW YORK CITY, NEW YORK, UNITED STATES, March 9, 2023  
/EINPresswire.com/ -- Market Overview:

The [refrigeration compressor market](#) refers to the market for compressors used in refrigeration systems. These compressors are used in various applications, such as air conditioning, refrigeration, and heat pumps. The market is driven by the increasing demand for refrigeration and air conditioning systems in residential, commercial, and industrial sectors.

## Key Takeaways:

1. The global refrigeration compressor market is expected to grow at a significant rate during the forecast period.
2. The market is driven by the increasing demand for refrigeration and air conditioning systems in various sectors.
3. The market is segmented by compressor type, application, and region.

## What's New:

The growing demand for energy-efficient and eco-friendly refrigeration compressors is expected to drive market growth in the coming years. The increasing popularity of variable speed compressors, which provide better energy efficiency,

is also expected to drive market growth.

Get a glance of the market contribution of various segments including country and region wise - [Download a sample report](#)

#### Market Demand and Trend:

- The demand for refrigeration compressors is expected to increase due to the rising demand for refrigeration and air conditioning systems in various sectors.
- The trend of using energy-efficient and eco-friendly compressors is gaining popularity among consumers.
- The demand for variable speed compressors, which provide better energy efficiency, is also on the rise.

#### Largest Market and Fastest Growing Market:

Asia Pacific is currently the largest market for refrigeration compressors, driven by the increasing demand for refrigeration and air conditioning systems in the region. The Middle East and Africa are expected to be the fastest-growing markets due to the increasing demand for refrigeration and air conditioning systems in the region.

#### Market Dynamics:

##### Drivers:

Increasing demand for refrigeration and air conditioning systems in various sectors.  
Growing demand for energy-efficient and eco-friendly refrigeration compressors.

##### Restraints:

High cost of refrigeration compressors.  
Stringent regulations and standards for refrigeration systems.

##### Opportunities:

Growing demand for variable speed compressors.  
Increasing demand for refrigeration systems in developing countries.

##### Challenges:

Competition from low-cost alternatives.

Technological advancements in refrigeration systems.

Key Market Segments:

Type

Reciprocating Compressor

Rotary Compressor

Application

Domestic

Small commercial

Commercial

Key Market Players included in the report:

Emerson

GMCC

Huayi Compressor

Huangshi Dongbei

Landa

Embraco

Panasonic

Secop

LG

HITACHI

Qianjiang Compressor

Shanghai Highly

Bitzer

Tecumseh

Wanbao

Samsung

Mitsubishi

RECHI Group

Frascold

Daikin

Recent Development:

In February 2021, Danfoss, a leading provider of refrigeration and air conditioning technology, announced the launch of a new range of compressors called the Danfoss Turbocor TG series. These compressors are designed to provide energy-efficient and eco-friendly solutions for various applications. The launch is expected to expand the company's product portfolio and strengthen its position in the refrigeration compressor market.

#### FAQs:

What is the refrigeration compressor market?

The refrigeration compressor market refers to the market for compressors used in refrigeration systems. These compressors are used in various applications, such as air conditioning, refrigeration, and heat pumps.

What is driving the growth of the refrigeration compressor market?

The market is driven by the increasing demand for refrigeration and air conditioning systems in various sectors and the growing demand for energy-efficient and eco-friendly refrigeration compressors.

Which region is currently the largest market for refrigeration compressors?

Asia Pacific is currently the largest market for refrigeration compressors, driven by the increasing demand for refrigeration and air conditioning systems in the region.

What are the challenges faced by the refrigeration compressor market?

The challenges faced by the refrigeration compressor market include competition from low-cost alternatives and technological advancements in refrigeration systems.

What are the opportunities in the refrigeration compressor market?

The opportunities in the refrigeration compressor market include growing demand for variable speed compressors and increasing demand for refrigeration systems in developing countries.
