“Argo U delivers information that helps board members, shareholders and unit owners make better strategic, operational, and lifestyle decisions,” said Ms. Tusing. “The Spring Energy Series is particularly significant because each seminar presents different ways in which boards and individual owners can help their buildings achieve Local Law 97 compliance standards and avoid penalties, while living healthier lives.”

Adds Mark Moskowitz, President & CEO of Argo Real Estate, “For more than a decade, Argo U has been an important resource for our client board members. We were happy to continue the series virtually these past few years, but nothing compares to the energy of a live panel with a Q&A session. We are really looking forward to the fourth seminar in our Argo U Energy Series!”
