

Highlights from the Construction Links Network platform this week - March 9, 2023

Canada's ONLY digital content sharing platform for the construction, building and design community

SUNDRE, ALBERTA, CANADA, March 9, 2023 /EINPresswire.com/ --

Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular e-Newsletters. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Top news this week has [Statistics Canada reporting](#) that January building permits in Canada decreased 4.0% to \$9.8 billion. The residential sector declined 6.6%, while the non-residential sector increasing 0.7%.

The [Ontario Construction Secretariat's annual Contractor Survey concludes](#) that 81 per cent of respondents think their business prospects for 2023 will either stay the same (49 per cent) or improve (32 per cent), while only 16 per cent are forecasting a drop in business. While there remain concerns about ever-rising costs, high interest rates, difficulties sourcing materials and challenges attracting workers, these are countered by the sheer volume of work right across the province that is putting more demand on the skilled construction trades.

Content shares from members this week include:
