The Raw Botanics Co Releases "Soothing Pillow Mist" a Pillow Spray with a Unique and Calming Adaptogen Blend of Botanicals

This product is a perfect addition to the company's line of natural wellness products that are formulated to help users feel their best. The Pillow Mist is made with high-quality, natural ingredients and is free from harsh chemicals, making it safe for use on the skin and for inhalation through the fabric of the sheets and pillow.

According to recent studies, nearly 70 million Americans experience sleep problems, including insomnia, sleep apnea, and restless leg syndrome. The National Sleep Foundation recommends that adults get 7-9 hours of sleep

per night, but many people fall short of that goal due to stress, anxiety, or physical discomfort.

Raw Botanics recognized this issue and saw an opportunity to use its expertise in plant and mushroom adaptogens to create a unique sleep aid that could help people improve their sleep quality. Raw Botanics is the first company to offer CBD in this delivery method.

Pillow Mist is easy to use and can be sprayed directly onto a pillow or bedding before bedtime. The CBD in the product interacts with the body's endocannabinoid system, which helps regulate sleep and wake cycles, while the Lavender, Patchouli, and Ylang Ylang provide a calming effect that helps users fall asleep faster and stay asleep longer.

"We are excited to launch our newest product, the Raw Botanics Co Pillow Mist, which combines the soothing properties of CBD and natural botanicals to help promote a restful night's sleep," said the CEO of Raw Botanics Co. Brendan Smith "We believe that our customers will love this innovative new product and appreciate the benefits that it can bring to their daily lives."

The Raw Botanics Co Pillow Mist is available for purchase on the company's website, <https://rawbotanics.com/products/lavender-eucalyptus-pillow-spray-with-hemp-oil>, and will be available for purchase in select retail locations soon.
