

Rear View Safety, a Safe Fleet brand, to sell Jungo's "VuDrive" accident-prevention systems to fleets in the US

NETANYA, ISRAEL, March 13, 2023 /EINPresswire.com/ -- Jungo & Rear View Safety, a Safe Fleet brand, have signed a distribution agreement, for selling Jungo's "[VuDrive](#)" accident-prevention systems to fleets in the US

Jungo's "VuDrive" solution, which will be sold under the name "Mobile Mule AI", is a potentially life-saving accident prevention system which monitors the quality of driving and helps fleets reduce repair and insurance costs.

Jungo Connectivity Ltd, a leading Israel-based AI company providing camera based In-Cabin Sensing software, and "Rear View Safety"- a Safe Fleet brand, have signed an agreement, and will partner to launch an AI-based accident prevention system under the name "Mobile Mule AI" during "NTEA Work Truck Show" this week in Indianapolis (March 8th-10th).

Driver error, namely drivers' distraction and fatigue, account for over 90% of road-accidents, leading to over 1.6 million accidents annually and claiming the lives of 39,000 people.

"Mobile Mule AI" offers a subscription-based, complete safety solution for fleets, including driver monitoring, road recording and event uploading. The system helps fleet owners prevent accidents with real-time driver alerts in cases of distraction, fatigue, phone use and aggressive driving. Mobile Mule AI also provides video documentation, driver scoring and improvement tracking on Jungo's [cloud management platform](#), which provides statistics and insights that are utilized to proactively improve drivers' behavior.

Safe Fleet is the leading provider of safety solutions for fleet vehicles. Their best-in-class smart solutions form an integrated safety platform for fleets of every type – School Bus, Transit, Fire, EMS, Law Enforcement, Work Truck, Truck & Trailer, Construction, Agriculture, Waste & Recycling,

The US fleet market is a key market for us & we consider the agreement with Rear View Safety and Safe Fleet as one with significant importance in our plan to penetrate the North American fleet market"

Opher Suhami, Jungo's CEO

Industrial and Military. With a broad portfolio of market-leading brands, 1,800 employees, 15 manufacturing locations and 12 service centers, Safe Fleet continues to innovate and deliver the smart safety solutions that fleets need to survive and thrive in a changing world – and help ensure that drivers, passengers, and everyone around them arrive home safely. As part of the agreement, it is estimated that thousands of vehicles in the US will be equipped with the accident-prevention system.

Jungo's CEO, Mr. Opher Suhami said: "This agreement expands the company's business activity. The US fleet

market is a key market for us and we consider the agreement with Rear View Safety and Safe Fleet as one with significant importance in our plan to penetrate the North American fleet market. The fact that Safe Fleet chose us as their supplier shows their confidence in our system to help decrease accidents and reduce costs."

"The agreement with Jungo helps us deliver a game-changing, and potentially life-saving, driver intervention system to the North American Commercial vehicle market," said Joseph Schechter, Vice President, Rear View Safety, a Safe Fleet brand."

About Jungo:

Jungo was formed in 2013. The company develops and sells software and multidisciplinary products, that enable monitoring & analyzing vehicle interiors, based on cameras and deep learning algorithms. Jungo's CoDriver product line provides information about drivers' attentiveness and drowsiness level, the number of passengers, unusual events, children left behind, objects detection and more- all of which is done by using AI, picture analysis and telematics.

In July 2021 Jungo became a public company, traded in the Tel Aviv Stock Exchange. Cisco owns 10% of the company's shares.
