UPS, FedEx, USPS and Canada Post making them a versatile option for businesses that ship their products through different channels.

Eiono® Shipping Labels stand out from the competition in many ways. Here are some:

- the highest quality materials to ensure crystal-clear images and easy-to-scan barcodes;
- remarkable resistance to smudges and scratches;
- attention to detail, for instance each roll is individually packed to provide the best heat and UV protection;
- powerful adhesive that makes the labels sticky and long-lasting and withstand severe weather and temperature conditions;
- precise perforation to allow easier separation between printed labels.

All that and much more research and development ensure that the labels won't fade or peel, giving the client a piece of mind when shipping important packages.

Being substantially more affordable than most original manufacturer products, and 100% compatibility with DYMO® LabelWriter® 4XL thermal printer, and also Rollo and Zebra label thermal printers provides a cost-effective solution for businesses of all sizes.

Eiono® is committed to help businesses streamline their shipping processes, saving time and money in the long run. The company stands behind their products and offer a 100% satisfaction guarantee, so you can buy with confidence.
