"We believe that everyone is naturally beautiful and unique, but we also understand that most people have insecurities that can hold them back in their life," said Dr. Brian Shafa, Board Certified Plastic Surgeon at Pacific Rejuvenation Médical. "After pregnancy and childbirth, many women experience changes to their bodies that can negatively impact their self-esteem. Our purpose is to enhance natural beauty and give our clients the confidence they need and deserve."

A Mommy Makeover is a combination of cosmetic procedures designed to address the physical changes that occur during and after pregnancy. The procedure typically includes a tummy tuck, breast lift, and Liposuction, but it can be customized to each client's unique needs and desired outcome.

"Our team of talented and experienced Plastic and Cosmetic Surgeons combine advances in medical technology and our expertise to give our clients their dream body," said Dr. Shafa. "We strive to provide a variety of services and a one-stop-shop experience that will leave our clients feeling their best."

In addition to Mommy Makeovers, Pacific Rejuvenation Médical also offers a range of other cosmetic procedures, including HD Liposuction, Breast Implantation, Facelifts, Renuvion J-Plasma Skin Tightening, and Nano BBL Fat Transfer to the Breast. The clinic also boasts the presence of TV celebrity Dr. Andrew Ordon from The Doctors show on staff.

"We have helped hundreds of moms reach their goals and restore their pre-pregnancy bodies," added Dr. Shafa. "Our team is dedicated to providing exceptional care and creating a comfortable, supportive environment for our clients."

One of those clients, Mary S., a mother of two, had this to say about her experience at Pacific Rejuvenation Médical: "After having my children, I didn't feel confident in my body anymore. I was hesitant to undergo plastic surgery, but the team at Pacific Rejuvenation Médical made me feel comfortable and answered all of my questions. I feel like myself again and couldn't be happier with the results. Thank you, Pacific Rejuvenation Médical."
