Held at the Stoweflake Resort in Stowe, Vermont, USA, the WWDVC, hosted by Data Vault Alliance, is the place to learn about all things Data Vault 2.0. When asked why attendees should make the trip up to Vermont early for the Premium Business Track, a spokesperson for Data Vault Alliance noted, "The Premium Business Monday Track of this year's WWDVC is a new venture for us in response to the current needs of our attendees. This program, separate from the rest of the conference, is all about how to talk Data Vault to the business side of your organization, in language they understand, and in a way that highlights how Data Vault is the optimal data warehousing solution for today's ever-changing world."

“

The Data Vault 2.0 System is all about the business, hence an entire day focused on the management side of things just makes sense. It's amazing value for the attendees and not to be missed.”
