

Namti Spa Introduces Revolutionary Micro-Current/LED Treatment for Glowing Skin

Namti Spa Introduces Innovative Micro-Current/LED Treatment for a Flawless, Glowing Complexion

SEDONA, ARIZONA, UNITED STATES, March 16, 2023 /EINPresswire.com/ -- Namti Spa, a leading day spa and medi spa facial provider in Sedona, is excited to announce their latest addition to their skincare treatments - the revolutionary micro-current/LED treatment for glowing skin. This new treatment is designed to give clients a youthful and radiant glow without the use of harsh chemicals or invasive procedures.

Namti Spa has been providing exceptional massage therapy, facial treatments, advanced skin care, acupuncture, and ayurveda services in Sedona, Arizona since July 2000. Their team of skilled professionals combines modern technology with traditional techniques to provide the most effective treatments for their clients.

The micro-current/LED treatment for glowing skin is a non-invasive procedure that uses micro-current and LED light therapy to stimulate the skin cells, promote collagen production, and improve skin elasticity. The micro-current technology sends gentle electrical impulses to the skin cells, which help to tone and lift the skin. LED light therapy helps to reduce inflammation and promotes healthy skin cells.

This innovative treatment is perfect for anyone looking to improve the overall health and appearance of their skin. It can help reduce the signs of aging, improve skin texture and tone, and give clients a more youthful and radiant glow.

Namti Spa's [medi spa facial in Sedona](#) is designed to provide clients with a relaxing and rejuvenating experience. Their team of experienced estheticians will work with clients to create a customized treatment plan that meets their unique skincare needs. They use only the highest quality products and equipment to ensure that their clients receive the best possible results.

"We are thrilled to offer this new micro-current/LED treatment for glowing skin at our medi spa facial in Sedona," said the spokesperson for Namti Spa. "We are always looking for ways to provide our clients with the latest and most effective skincare treatments. This new treatment is

a game-changer and we are confident that our clients will love it."

Namti Spa's micro-current/LED treatment for glowing skin is available now at their medi spa facial in Sedona.

About Namti Spa:
