

Prime Minister of Vietnam visits Genetica: Propelling Vietnam to the forefront of Asia's Biotech Industry

Genetica® is a prominent Asian biotech company.

SINGAPORE, March 14, 2023

[/EINPresswire.com/](https://EINPresswire.com/) -- On March 4th, Genetica®, a leading biotech company in Asia, had the honor of welcoming Prime Minister Pham Minh Chinh to their lab during his visit to the National Innovation Center (NIC).

The Prime Minister was accompanied by several government officials, including Minister of Defense Phan Van Giang, Minister of Planning and

Investment Nguyen Chi Dung, Minister of Foreign Affairs Bui Thanh Son, Minister of Information and Communications Nguyen Manh Hung, Minister of Science and Technology Huynh Thanh Dat, Minister of Labor, Invalids and Social Affairs Dao Ngoc Dung, and leaders of central ministries, industries, and Hanoi city.

During the visit, the Prime Minister emphasized the importance of developing biotechnology as a key driver for innovation and economic restructuring. Specifically, by 2030, Vietnam aims to become a top 10 country in Asia's biotechnology industry with high-quality human resources, robust infrastructure, and sufficient financial resources.

To help Vietnam achieve the goal in 2030, Genetica® aims to accelerate gene decoding and precision medicine to benefit billions of people by establishing its AI-Powered decentralized science platform - [GenomicDAO](#). "We are proud to own an AI-powered platform for gene decoding, a patent-pending gene-decoding chip for Asian genomes, and a CLIA-certified genomic lab," said Dr. Duyen Bui, Co-Founder & CSO of Genetica. "These capabilities enable us to revolutionize healthcare for people in Asia and beyond. We strongly believe our work aligns with the Vietnamese government's goals of becoming a biotech unicorn by 2030."
