

Introducing BG Locksmith: A Top-Rated Lock and Rekey Service in Bowling Green, KY

The reputable company services both residential and commercial properties in Bowling Green and surrounding areas.

BOWLING GREEN, KENTUCKY, UNITED STATES, March 15, 2023 /EINPresswire.com/ -- In a market saturated with different locksmith companies for customers to choose from, BG Locksmith is pleased to announce it is continuing to offer its top-rated [lock rekey](#) service.

BG Locksmith is a fully licensed and certified locksmith company with over 10 years of experience servicing Bowling Green, KY, and surrounding areas. Customers can expect fast and accurate locksmith services, 24 hours a day, 365 days a year. BG Locksmith is renowned for its affordable pricing and professional technicians who arrive fully equipped with all of the necessary equipment needed to complete any job – no matter how big or small.

What truly sets the company apart from the competition, however, is its ever-popular [lock rekeying](#) services. Rekeying a lock means refitting it so that only a new key will work on the lock and it is a critical first step when moving into a new home. According to the company, instead of buying and installing completely new locks, one of the best ways to save time and money is to hire a locksmith to rekey the lock instead.

“The rekey process is simpler than you may expect - if you are in the right hands,” says founder of the company, Tim Arefkin. “We start by removing all of the pins from the cylinder. Our technicians will come prepared with a vast collection of replacement pins of various sizes and will select new lower pins that fit perfectly between the notches of the shear line and new key. As a result, when you try using your old key, it won’t work. Only the new key will be able to make the cylinder turn to unlock the door. This means your home will be much more protected against crime than if you did not rekey the locks at all. Don’t leave this to chance and we invite you to call us to have your home or business rekeyed - today.”
