

# KPIT to accelerate Honda's transformation towards Software-Defined Mobility

TOKYO, JAPAN, March 15, 2023

/EINPresswire.com/ -- [KPIT](#) to

accelerate Honda's transformation towards Software-Defined Mobility

Tokyo, Japan; Pune, India | 15th March 2023 |

The partnership in mid to long term will expand to over 2,000 Software and Vehicle System Professionals from KPIT across the globe to power Honda's SDM roadmap until year 2030 and beyond."

*Mr. Kishor Patil, CEO, KPIT Technologies*

KPIT Technologies announced their partnership with Honda to realize the journey of Honda's Software-Defined Mobility (SDM). With Honda's next-generation software architecture and control-safety technology and KPIT's deep domain & software expertise in the areas of Autonomous Driving, Vehicle Electrification, In-Vehicle Infotainment systems and Platform Software, Honda will continue to provide various services and enhanced value to customers around the world in the future.

Comments from Mr. Kishor Patil, CEO, KPIT Technologies

"KPIT's Vision is to Reimagine Mobility to create a Cleaner, Smarter and Safer world. Honda is an iconic brand and deeply aspirational across the globe. KPIT has worked closely with Honda for the last eight years. It has been a relationship of trust and mutual respect. The partnership in mid to long term will expand to over 2,000 Software and Vehicle System Professionals from KPIT across the globe to power Honda's SDM roadmap until year 2030 and beyond."

Comments from Mr. Sachin Tikekar, President & Joint Managing Director, KPIT Technologies

"Honda is well respected for its DNA of Innovation, Excellence, and Quality. KPIT echoes Honda's core principles, creating a solid foundation for a long-term, strategic partnership. Our broad experience in developing [SDV](#) roadmaps for several industry leading car and truck makers coupled with an ecosystem of Alliances gives us the confidence to create something unique for Honda."

About KPIT Technologies

KPIT Technologies is a global partner to the automotive and mobility ecosystem for making software-defined vehicles a reality. It is a leading independent software development and integration partner helping mobility leapfrog towards a clean, smart, and safe future. With 10000+ automobile believers across the globe specializing in embedded software, AI, and digital solutions, KPIT accelerates its clients' implementation of next-generation technologies for the future mobility roadmap. With engineering centers in Europe, Brazil, the USA, Japan, China, Thailand, and India, KPIT works with leaders in automotive and mobility and is present where the ecosystem is transforming.
