"Very positive experience. The focus was on the most important items with good time management so it was easy to keep attention, and consequently to complete the courses."

A.S., December 2022 – [Aircraft Technical Leasing- EASA Learning Path Diploma](#)

"It was very detailed in the regulatory aspects and theoretical part. New information was found. This course is suitable for those who just begin the transition projects. Nevertheless, some of the topics are interesting even for a very experienced aviation professional and for sure it will update his/her regulatory knowledge."
