Seafoam green is a soothing and tranquil color that blends green and blue hues, resembling the color of ocean waves. We find that this color pairs well with soft and neutral tones, such as white, beige, and light gray, as well as natural textures like wood and rattan, to create a calming and coastal-inspired decor.

Hazelnut Clay is a warm and earthy shade of brown with subtle orange undertones, reminiscent of natural clay. It really pairs well with warm colors like rust, terracotta, and mustard, as well as with natural materials such as wood, leather, and woven textiles, to create a cozy and inviting decor.

Coconut Milk Cream is a delicate and calming color that evokes a sense of peace and tranquility. This color pairs well with natural materials like wood, rattan, linen, jute, and seagrass, which add texture and depth to the space and create a warm and organic ambiance.

Cool Grey is a modern and sophisticated shade of gray with blue undertones that gives a sense of calmness and stability to any space. Cool Gray works really well with bright and bold accent colors like yellow, orange, and teal, as well as with metallic finishes like silver,
