

5G Market to grow by USD 414.6 billion by 2027; Airtel, BT & China Mobile among others identified as key trends, 2023-33

The global 5G market is expected to grow from USD 12.4 billion in 2020 to USD 414.6 billion by 2027, at a CAGR of 69.4% during the forecast period.

NEW YORK CITY, NEW YORK, UNITED STATES, March 16, 2023
/EINPresswire.com/ -- Market Overview:

The [#5G market](#) is rapidly growing due to the high demand for high-speed data transfer, low latency, and increased network coverage. The demand for 5G services is driven by the increasing need for high-speed data transfer and low latency for applications such as virtual reality, autonomous driving, and telemedicine. Additionally, the proliferation of connected devices and the Internet of Things (IoT) is expected to further drive the demand for 5G services.

Some of the top key trends in the 5G market include the development of 5G networks, the deployment of 5G-enabled devices, and the emergence of new applications and services that leverage the capabilities of 5G technology. Another trend is the increasing adoption of cloud-based services, which are optimized for 5G networks.

The Asia Pacific region is expected to be the largest and fastest-growing market for 5G services. This is due to the large population, high demand for data services, and investments in 5G infrastructure by governments and telecom companies.

Top Impacting Factors:

Some of the top impacting factors in the 5G market include the availability of spectrum, the deployment of 5G infrastructure, the development of 5G-enabled devices, and the regulatory environment.
