/EINPresswire.com/ -- More than 200 religious leaders and congregants from the South African Christian Ministers Council (SACMIC) recently graduated the [Tools for Life](#) skills development in Mafikeng, North West in order to use their influence to tackle the devastating

social issues that have been plaguing their community. Deeply worried by the slow and insidious decline of our country the President and Parliament Advisor of the South African Christian Ministers Council, Bishop Daniel Matebesi, called for a nationwide faith based support team to discuss how to deal with the decrease in spiritual values and increase in drug and substance abuse, gender based violence, youth unemployment and more.

“

I am convinced that this program can help all Churches to grow and bring spiritual values back to society.”
