#### Definition:

Business valuation is the process of determining the economic value of a business. Business valuation services are typically provided by professional valuation firms or business brokers who use a variety of methods and techniques to determine the value of a business. The purpose of a business valuation can vary depending on the circumstances. For example, a business owner may need a valuation for estate planning, to sell the business, or to secure financing. A business valuation can also be useful for investors who are considering buying or investing in a company.

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.
