

EvidenceCare Announces SOC 2 Completion, Further Committing to Healthcare Data Security and Compliance

EvidenceCare recently completed its first SOC 2®, Type 2 examination which reported on its commitment to operate secure controls.

NASHVILLE, TN, USA, March 20, 2023 /EINPresswire.com/ -- [EvidenceCare](#), an innovative clinical decision support company, today announced the successful completion of the [SOC 2®, Type 2 examination](#) process for cybersecurity.

A widely recognized auditing standard developed by the American Institute of Certified Public Accountants (AICPA), the SOC 2® audits assess the security, availability, processing integrity, confidentiality, and privacy controls in service organizations against the AICPA's Trust Services Criteria (TSC).

“

This is an important confirmation that we continue to operate in a secure manner for our hospital and health system clients.”

Kyle Duke, Chief Information Officer of EvidenceCare

This is EvidenceCare’s first SOC 2® report for healthcare data security and compliance, which attests to the comprehensive design and effectiveness of the operational controls to provide assurance that EvidenceCare’s service commitments and system requirements were achieved based on the applicable trust services criteria.

“This is an important confirmation that we continue to operate in a secure manner for our hospital and health

system clients,” said Kyle Duke, Chief Information Officer of EvidenceCare. “We’re taking the necessary steps to confirm our secure controls and processes to achieve HITRUST certification in the coming year.”

According to SOC, the examination engagements for SOC 2, Type 2 reports are performed by a

service auditor in accordance with SSAE No. 18, Attestation Standards to assure not only that controls exist, but also that they are operationally effective.
