What sets the Pulse Award apart is the research behind it. Pulse uses a database of performance information that has been compiled on an ongoing basis since 2009. Then, by determining an annual rating for companies, Pulse offers a level of stability that tells the whole story, not just what the company did last week. The Pulse Award is reserved for those earning the highest ratings of 4 or 5 stars.

As the year moves along, Pulse will continue rolling out its customer satisfaction research results and announcing the most recent recipients of its prestigious Award for Excellence in Customer Satisfaction.

Frank Andrews, Founder of The Stirling Center, which works with Pulse of the City in identifying building and construction companies that provide more than just great design and construction services, but also a great customer experience, says, "They are shining examples of the great contribution that leading small businesses make to the quality of our lives and communities, and we salute them!"
