

Introducing the Nino Wood Fired Oven from ilFornino®

A Pizza Oven for The Pizza Expert in You!

VALLEY COTTAGE, NY, UNITED STATES, March 18, 2023 /EINPresswire.com/ -- ilFornino®, the leading manufacturer of wood-fired ovens, is excited to announce the release of its newest product, the Nino [Wood Fired Oven](#). This oven is the real deal, designed for pizza experts who crave authentic wood-fired pizza at home.

Unlike other pizza ovens, the Nino Wood Fired Oven features a real wood-fired flooring made of one piece that is 1 ¼ " thick. This is not your average pizza stone found in other ovens. The oven's flooring is designed to provide the perfect balance of heat, allowing for the crispy crust and soft, chewy center that pizza enthusiasts love.

An optional gas burner that promises to make cooking a breeze is also available for the Nino oven.

The Nino Wood Fired Oven is also unique in that it uses real wood for the fire. The oven can handle larger logs, and there are no pellets that could be harmful to your health or the health of your family while inhaling the smoke. The oven's roaring flames are real wood flames that hug the dome from left to right, the way pizza ovens are intended, not from back to front.

“

Whether you're a seasoned chef or a passionate home cook, this oven will allow you to create pizzas that rival those made in traditional Italian pizzerias.”
