

# Outsource-Philippines Now Offers Employer of Record Services

*To keep abreast of the ever-changing global commerce, Outsource-Philippines recently unveiled their new offering, Employer of Record services*

SAN PEDRO, LAGUNA, PHILIPPINES, March 17, 2023 /EINPresswire.com/ -- Foreign companies can now hire easily through Outsource-Philippines' (OP) [employer of record](#) (EOR) services. Companies don't have to worry about being in charge of all employment-related duties, expenses, or obligations when they hire or have individuals on staff. With OP's EOR, they can be assured of streamlined [human resources processes](#).

Services from Outsource-Philippines Employer of Record are now accessible to businesses worldwide.

OP's EOR services enable international businesses to lawfully hire Filipino workers without the need to set up a local corporation or run the risk of breaking Philippine labor regulations. In essence, an EOR is the link that connects the client firm and its international employees by serving as the legal employer. Small, medium, and big enterprises can use the EOR services.

Foreign businesses can employ subcontractors in several nations using the EOR service. Contracts, background checks, wages, taxes, employee benefits, terminations, and other issues are handled by EOR, which also serves as human resources management. While the client firm will still be in charge of the day-to-day operations, EOR is accountable monitoring the man hours and processing the payroll.

Finally, partnering with an EOR service provider is highly advised if you want to ensure that you can hire suitable workers quickly because the recruiting procedure often takes some time. Depending on what their firm needs, the majority of EOR organizations recognizes that enterprises may require various employment periods. EOR services may therefore also suggest employment terms depending on project costs, seasonality of demand, company slowdowns,

and fixed overheads.

In line with this, working with OP's EOR will allow firms to [free up more time and save resources](#). As previously stated, when a company acquires OP's EOR services, it no longer has to deal with human resources and payroll issues. It saves money and allows firms to focus more on growth. It also gives them more control over the work's quality.

Responding to a question concerning the launching of EOR services, Outsource-Philippines CEO Celina Mercado said, "It is without a doubt our mission to support organizations all over the world for their company growth as our own company also grows. Because of this, we are very glad to introduce our Employer of Record services to the world."
