

Dr. Brett Bolton Offers Corrective Surgery for Childhood Trauma Hair Loss Scars

Dr. Brett Bolton Offers Corrective Surgery for Childhood Trauma Hair Loss Scars

FORT LAUDERDALE, FLORIDA, UNITED STATES, March 17, 2023 /EINPresswire.com/ -- Fort Lauderdale, FL - Hair loss scars can have a significant emotional impact on individuals, affecting

“

Although the majority of our patients only do one procedure, we always recommend two procedures in the same area for the optimal outcome. I look forward to meeting you in person.”

Dr. Brett Bolton

their self-esteem and confidence. Dr. Brett Bolton, a renowned hair restoration surgeon, is now offering corrective surgery to individuals who have experienced injuries or trauma resulting in hair loss scars. Dr. Bolton's aim is to help patients regain their confidence and self-esteem by restoring their hair and eliminating visible scars.

Hair loss scars are a common occurrence among individuals who have suffered from injuries or trauma. These scars can have a profound impact on an individual's emotional well-being, leading to a loss of confidence and

self-esteem. Dr. Bolton understands the emotional toll that hair loss scars can take and is committed to helping patients achieve their desired results. You can see his work [on his Instagram feed](#).

Dr. Bolton has developed a specialized corrective surgery technique that restores hair in areas affected by scars. He uses his unique MaxHarvest™ hair restoration procedure, which safely extracts the maximum number of hairs possible from the donor area and transplants them to the scarred area. Additionally, he offers Bolton Bundles™ to provide more density behind the hairline, resulting in undetectable soft natural results.

The MaxHarvest™ Hair Transplant is a specialized hair restoration surgery developed by Dr. Bolton that safely extracts the maximum number of hairs possible based on the individual's scalp elasticity and donor area condition. The unparalleled formula ensures that each patient has the best opportunity to yield maximum results based on their individual variables in just one procedure.

The Bolton Bundles™ technique involves grafts containing 2-3 follicular units or (4 to 8 hairs). The

technique offers more density behind the hairline, undetectable soft natural results, healthier transplanted tissue, lower hair transplant costs, and satisfying results in just one procedure.

Dr. Bolton's expertise in hair restoration surgery is well-known, and he works closely with each patient to develop a personalized treatment plan that meets their unique needs and goals. He is committed to helping patients who have suffered from injuries or trauma. His focus is on helping individuals regain their confidence and live their best lives.

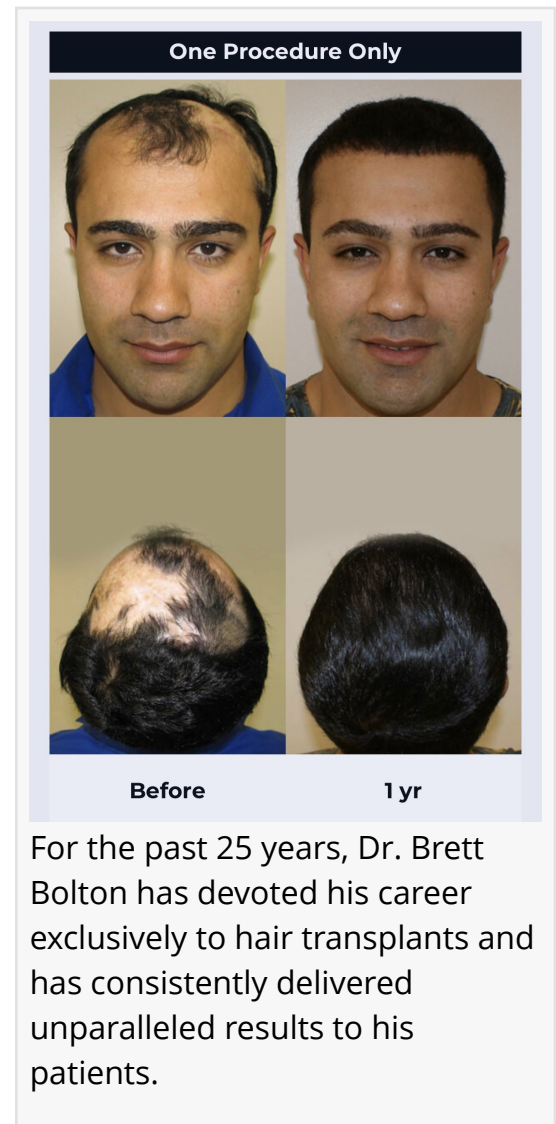

Individuals who have undergone injuries or trauma during their childhood can carry physical scars with them throughout their adult lives. These scars may cause hair loss, which can be a source of distress. Dr. Bolton understands the emotional impact of hair loss and is committed to helping patients achieve their desired results.

The emotional impact of hair loss scars cannot be understated. They can affect an individual's quality of life and lead to a loss of confidence and self-esteem. With corrective surgery, patients can restore their hair and eliminate visible scars, regaining their confidence and self-esteem.

Dr. Bolton's specialized technique is designed to address hair loss scars in a safe and effective manner. He has developed a reputation for excellence in the field of hair restoration surgery, and his patients have reported high levels of satisfaction with their results.

If you are interested in learning more about corrective surgery, contact Dr. Brett Bolton at his Fort Lauderdale office today. Dr. Bolton and his team will work with you to develop a personalized treatment plan that meets your unique needs and goals. The prices are competitive, and availability can be confirmed by contacting Dr. Bolton's office directly.

In conclusion, hair loss scars can have a significant impact on an individual's emotional well-being. Dr. Brett Bolton's specialized corrective surgery technique offers patients the opportunity to restore their hair and eliminate visible scars, regaining their confidence and self-esteem. With his MaxHarvest™ hair restoration procedure and Bolton Bundles™ technique, Dr. Bolton provides patients with undetectable soft natural results, healthier transplanted tissue, and satisfying results in just one procedure. If you are interested in learning more about corrective

surgery, contact Dr. Bolton's office today.
