Trending IT Professional Services Market Trend

Technological advancement is a key trend gaining popularity in the IT professional services market. Major companies operating in the IT professional services market are focused on developing new technological solutions to strengthen their position in the market. For instance, in October 2021, VMware Inc., a US-based company operating in IT professional services, launched Cross-Cloud services for multi-cloud management. This group of integrated services would help to deliver a faster and smarter path to the cloud for digital businesses, providing customers with the ability to build, run, and better secure apps through any cloud with freedom and flexibility. Through VMware Cross-Cloud services, customers would have key advantages such as accelerated cloud journeys, cost efficiency, flexibility, and control over multiple clouds.
