Trending Energy As A Service Market Trend

Partnerships and agreements among companies are key trends gaining popularity in the energy as a service market. The companies operating in the energy as a service market are undergoing partnerships and agreements to meet consumer demand. For instance, in August 2021, the Engie group signed an agreement with Google LLC, a US-based multinational technology company, to provide carbon-free electricity in Germany. The agreement will help Google meet its

carbon-free energy goals for its data centers, cloud regions, and offices throughout the world by 2030. Engie will assemble and negotiate an energy portfolio to supply Google with renewable energy (solar and wind) to ensure that all of its German activities are approximately 80 percent carbon-free by 2022

[Energy As A Service Market Segments](#)
