The top factors influencing the market growth include increase in health consciousness, rise in obese population across world, initiatives by government to promote healthy lifestyle, health benefits associated with yoga & Pilates and celebrity endorsement & promotion among others. The major factor that limits the growth of the Europe Pilates & yoga studios market is the

presence of numerous substitutes. Increased awareness regarding health & fitness is expected to significantly drive the growth of the market. Although fitness consciousness is higher in urban areas, the market is expected to witness steady growth in semi-urban areas of the developing economies. A significant rise in the obese population supplements the Europe Pilates & yoga studios market growth. Inactive lifestyle and dysfunctional diets cause obesity, which results in increased prevalence of cardiovascular and lifestyle diseases. Thus, rise in obese population is expected to fuel the growth of the Europe Pilates & yoga studios industry.

The governments of developed countries are constantly in the process of conceptualizing and establishing effective and timely healthcare programs. Developing countries indicate a significantly growing trend of healthcare offerings across all sectors. The allowances related to employee fitness is expected to experience an increase in future. This is anticipated to boost the business of Pilates & yoga studios, as a significant portion of the employee income would be invested in studio membership. This in turn is expected to drive the growth of the Pilates & yoga studios industry. Yoga and Pilates provide both physical and mental benefits to participants. These help improve flexibility, balance & posture, and range of motion. Furthermore, it reduces stress through controlled breathing and mental focus. This results in improved sleep cycle and helps avoid mood swings, depression, and other disorders.

Celebs such as Robert Downy Jr., Keanu Reeves, Julia Roberts, Demi Moore, Charlize Theron, Kim Kardashian, Madonna, and others have spoken about Yoga and how it has been transforming their health and lifestyle. This is influencing both young and middle-aged people to practice yoga and Pilates owing to the associated benefits.

However, presence of other alternatives such as multi-specialty gym, fitness centers, and therapy classes significantly hampers the market growth. Although yoga has become popular among people across the world, the presence of fitness centers, gyms, and other fitness facilities (dance, martial arts) are competing aggressively with the yoga studios.
