

# SoCal Roofing & Solar Company Solves Dilemma for Homeowners Facing Expiring NEM 2 Rates with Innovative Program

*Roof King Roofing & Solar introduces SLIP, a program that protects NEM 2 rates for 3 years, empowering homeowners to make informed solar decisions.*

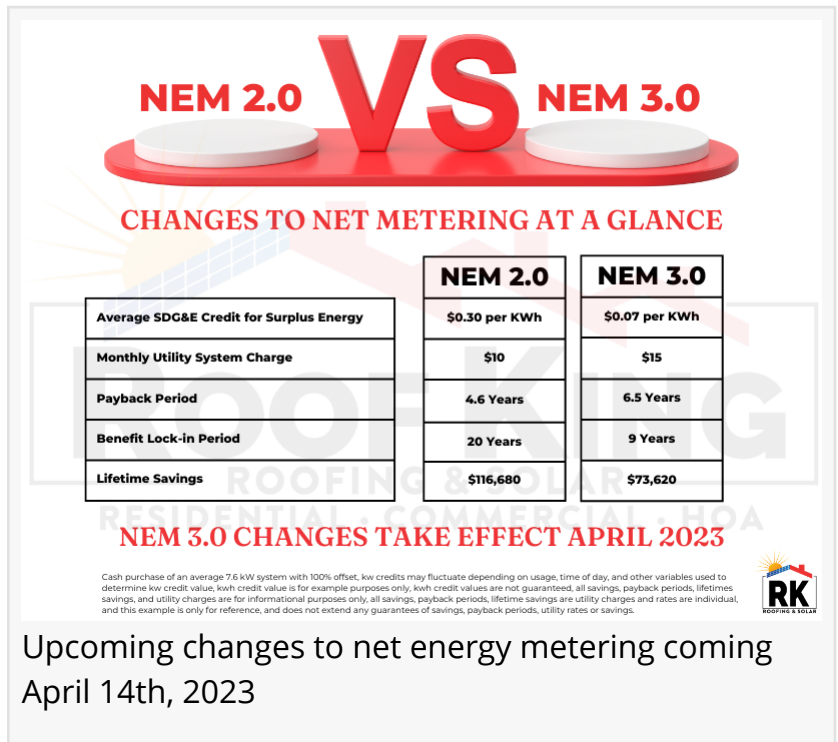

SAN DIEGO, CA, UNITED STATES, March 17, 2023 /EINPresswire.com/ -- Roof King Roofing & Solar, a leading provider of roofing and solar solutions, is proud to announce the launch of its Solar Letter of Intent Program (SLIP). With the SLIP program, homeowners can protect their Net Energy Metering (NEM) 2 rates and make informed solar decisions without the pressure of a rushed installation.

[NEM 2](#) is a significant incentive program that allows homeowners to save money by selling excess energy generated by their solar panels back to the utility grid. However, NEM 2 is set to expire on April 14th, 2023, which means that homeowners need to act quickly to take advantage of this program before it's too late.

The SLIP program offers a simple solution to this challenge. With SLIP, homeowners can secure their NEM 2 rates by submitting a non-deficient interconnection application with their utility company. This allows them to hold onto their NEM 2 rates for up to 36 months, giving them the time they need to make informed decisions about their [solar installation](#).

"We understand that making the decision to go solar can be overwhelming, especially with the time-sensitive nature of NEM 2," said Brian Duggan, CEO of Roof King Roofing & Solar. "That's why we created the SLIP program to empower homeowners to make informed solar decisions without feeling rushed or pressured"

The SLIP program is designed to simplify the solar installation process and give homeowners the time they need to make informed decisions. With SLIP, homeowners can slip into line and protect

	NEM 2.0	NEM 3.0
Average SDG&E Credit for Surplus Energy	\$0.30 per KWh	\$0.07 per KWh
Monthly Utility System Charge	\$10	\$15
Payback Period	4.6 Years	6.5 Years
Benefit Lock-in Period	20 Years	9 Years
Lifetime Savings	\$116,680	\$73,620

**NEM 3.0 CHANGES TAKE EFFECT APRIL 2023**

Cash purchase of an average 7.6 kW system with 100% offset, kw credits may fluctuate depending on usage, time of day, and other variables used to determine kw credit value, kw credit value is for example purposes only, all savings, payback periods, lifetime savings are utility charges and rates are individual, and this example is only for reference, and does not extend any guarantees of savings, payback periods, utility rates or savings.

Upcoming changes to net energy metering coming April 14th, 2023

Making the decision to go solar can be overwhelming, especially with the NEM 2 deadline looming. We created the SLIP program to empower homeowners to make informed solar decisions without pressure.”
