strengthening the use of environment-friendly refrigerants. For instance, in May 2021, MIRAI INTEX, an Czechia-based engineering company that manufacture ultra-low temperature refrigerators for the pharmaceutical industry launched MIRAI Cold 80 T, which is an eco-friendly ultra-low temperature refrigeration system. MIRAI Cold 80 T uses only air as a refrigerant and does not use oil for lubrication, making it the most environmentally friendly Ultra-Low Temperature (ULT) refrigeration solution. Therefore, the adoption of natural refrigerant-based equipment owing to stringent regulatory policies is another factor driving the industrial refrigeration system market growth.
