

# Electronics Recycling Benefit for the Florida Springs Council, Earth Day Event on April 22, 2023

*The Lake County Democrats are sponsoring this service to the community in observance of Earth Day and will hold the event in Leesburg*

LEESBURG, FLORIDA, USA, March 21, 2023 /EINPresswire.com/ -- As a service to the community,

“

It's not always easy to 'do the right thing' when disposing of worn-out devices. This event will provide a convenient and responsible way to dispose of many items in a household.”

*Dennis “Dutch” Venrooy, Lake Democrats Club*

and to help raise funds for the [Florida Springs Council](#), a 501(c)3 non-profit coalition designed for collective advocacy focused solely on the protection and restoration of Florida's springs, several Lake County Democratic clubs have banded together to organize an electronics recycling event on the 22nd of April, 2023 in Leesburg, adjacent to [Pat Thomas Stadium, 240 Ball Park Rd, Leesburg, FL 34748](#). This event will be held with the support of [Recycle All Electronics](#), an electronics recycling company based in Ocala, Florida.

All the parties concerned firmly believe in the importance of recycling electronics that are either unwanted, not

working or at the end of their “useful life”. These items are collectively known as e-waste, which is made up of many toxic metals that, if disposed of improperly, leach into the ground and water – polluting our earth every day. E-waste represents 2% of America's trash in landfills, but it equals 70% of overall toxic waste.

Dennis “Dutch” Venrooy, member of the Lake Democrats Club and organizer of this Earth Day event explained that, “It's not always easy to 'do the right thing' when disposing of worn-out devices. This event will provide a convenient and responsible way to dispose of many items in a household.” Venrooy ended by saying, “Please keep your devices out of the trash and out of the landfill.”
