

# GCRC Leader Mike Robinson Named To Scientific Panel, 2nd International Meet On Pharmaceuticals and Drug Delivery Systems

*The NANO Group's CEO Mike Robinson, who was listed as one of High Times Top 100 Most Influential in Cannabis, continues to educate clinicians around the world.*

SANTA BARBARA, CA, UNITED STATES, March 21, 2023 /EINPresswire.com/ -- Nanobles Corporation C.E.O. [Mike Robinson](#), who has led the Global Cannabinoid Research Center (GCRC) for the entity and founded it in 2018, will be a Keynote Speaker at the [2nd International MEET](#) on Pharmaceuticals and Drug Delivery Systems to be held in Rome, Italy, during February 12-14, 2024. He was also named as a member of the Scientific Committee that reviews all literature presented.

The Meet is a unique event in which only 200 attendees gather from 35 countries to hear and meet 18 Plenary and Keynote Speakers. Robinson is the only one of that esteemed crowd of Academics that is not a University Professor or a pharmaceutical lab owner.

"Mike has sought out the events that don't talk about the future world of pharmaceutical Cannabinoid Medicines," the C.O.O. of Nanobles Corporation [David Uhalley](#) explains, "now they're all searching for him, and during a time in which much of his work is private R&D for our entity. I admire his tenacity in accepting these invitations and sharing as much as possible while keeping a few, or a lot, of secrets."

Mike Robinson, the Corporations CEO, is a cannabinoid medicine researcher that merged his entity into Nanobles Corporation to prepare for the world of Plant based pharmaceuticals and nutraceuticals..

Professionals in Research and the Pharmaceutical Industry meet and discuss and share persuasive critical advances in Pharmaceuticals and Drug Delivery Systems. With various Keynote presentations, Workshops, and Discussions, the conference offers a unique venue for renewing professional relationships, networking, and remaining up-to-date variations in our challenging and expanding discipline.

Robinson, who has been in his own Cancer battle over the past six months, accepted the invitation for 2024 on a positive note. "It's critical that we share our most recent advancements in deliveries, open our minds to plant medicines in a whole new way, and attempt to gain traction in a movement away from chemicals that many are trying to avoid or reduce, especially in Cancer Therapies."

With its remarkable history, Rome is Europe's third most visited city and the fourteenth worldwide. It attracts visitors from all over the world who are impatient to discover the city's impressive monuments and archaeological sites, not to mention its renowned cuisine and lively atmosphere.

As the saying goes, 'all roads lead to Rome,' and the conference will bring together delegates from all over the world for the largest and most prestigious event for international speakers, providing an abundance of research and networking opportunities, not to mention the chance to explore one of the fascinating cities on Earth.

If you're one of the 200 that goes to the 2nd International Meet on Pharmaceuticals and Drug Delivery Systems in Rome, Italy, early next year - make sure to connect with Mike to talk about his various cannabinoid and other plant medicine creations for the world of pharmaceuticals, with many utilizing Nanotechnology.

SCIENTIFIC SESSIONS:

Rome Italy is the venue for this prestigious event

Mike Robinson , CEO of Nanobles Corporation and Founder of Global Cannabinoid Research Center

Pharmaceutics Technology and  
Pharmaceutical Sciences  
Pharmacokinetics and  
Pharmacodynamics  
Medicinal Chemistry and Molecular  
Drug Design  
Clinical and Hospital Pharmacy  
Pharmacogenomics, Microbiology, and  
Biotechnology  
Bio-drugs, Biomolecules, and  
Therapeutics  
Polymers in Drug delivery  
Smart Materials and Biomaterials in  
Drug Delivery  
2D & 3D Printing in Drug Delivery  
Formulation Technologies and  
Reformulation Studies  
Pediatric Drug Delivery Systems  
Novel Vaccine Drug Delivery Systems

Nanobles Corporation, an innovative leader in health and wellness

Nanotechnology offers unique drug delivery systems that can target specific health issues people around the world face daily, sharing information in this MEET is critical in advancing medicine.”

*Mike Robinson, CEO,  
Nanobles, Inc.*

Drug Reaction and Drug Toxicity  
Industrial/Physical Pharmacy  
Nanotechnology in drug delivery and Nano Medicine  
Pharmacology and Immuno-Pharmacology  
New Drug Development Techniques  
Transdermal/Intradermal Drug Delivery Systems  
Impact of Pharmaceuticals on the Environment  
Biopharmaceutics
