[Trending Environment Management, Compliance And Due Diligence Market Trend](#)

The launch of carbon footprint management has created immense demand in the environmental management, compliance, and due diligence services market. Companies are increasingly following carbon footprint management at the vertical level due to the need to comply with carbon emissions regulations. For instance, in June 2020, SAP launched a carbon emissions accounting system to address climate change. SAP launched the first solution in its Climate 21 program to help enterprises to perform their business operations efficiently where
