Companies in the household cooking appliance market are increasingly launching technologically advanced multi-functional ovens to cater to the rising demand for multi-functional appliances with additional benefits. These multi-functional ovens use a wide range of methods to provide customized and easy cooking. These ovens use devices to guide and instruct users in the process of cooking. Apart from these, they also come with catalytic and pyrolytic

self-cleaning functions. The catalytic self-cleaning feature allows the use of special chemically installed liners to absorb grease, while the pyrolytic self-cleaning function of these ovens allows them to clean the dirt and grease using high temperatures. For instance, Electrolux's EOY5851AAX oven uses different programs and functions to make the cooking process easy and customized. It has pyrolytic cleaning technology that allows self-cleaning.
