[Trending Protein Inhibitors Market Trend](#)

Companies in the protein inhibitors market are increasingly investing in various strategic initiatives such as partnerships and collaborations to develop new drugs to meet the market demand. Strategic collaborations and partnership agreements help companies to expand their existing product portfolio and geographical presence. For instance, in February 2020, Catalent, Inc., a USA-based provider of delivery technologies, drug manufacturing, gene therapies, biologics, and consumer healthcare products announced a partnership agreement with Zumutor Biologics Inc., an immune-oncology company based in the USA to manufacture ZM008, a monoclonal antibody targeting solid tumors. Moreover, in February 2021, Eli Lilly and Company, a USA-based pharmaceutical company, and Rigel Pharmaceuticals, Inc., a USA-based biotechnology company, announced a global exclusive license agreement and strategic collaboration to co-develop and commercialize Rigel's R552, a receptor-interacting serine/threonine-protein kinase 1 (RIPK1) inhibitor, for all indications, including autoimmune and inflammatory diseases.

Protein Inhibitors Market Segments

- By Product: Protein Kinase Inhibitors, Monoclonal Antibody, Other Products
- By Application: Oncology, Inflammatory Diseases, Other Applications
- By Distribution Channel: Hospital Pharmacies, Independent Pharmacies, Online Pharmacies
- By Geography: The global protein inhibitors market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.
