

Lewis Consulting Group Secures Federal Schedule for 2023 and Beyond

MBE Environmental Firm Targeting Collaborations to Grow Nationwide Opportunities

NEWARK, NEW JERSEY, USA, March 21, 2023 /EINPresswire.com/ -- [Lewis Consulting Group](#) (LCG) has secured its official work schedule with the Federal Government General Services Administration (GSA) for the 2023 fiscal year. The trailblazing minority

business-owned (MBE) environmental consultancy firm has served New Jersey communities for the past 10 years. It now looks to expand its quality professional services within the mid-Atlantic region federal marketplace by partnering with other firms seeking to increase market share in the engineering/environmental business sectors.

“

LCG has built our reputation on understanding the needs of our clients, conducting environmental investigations, and delivering quality and competitively priced services in a timely manner.”

*Zachary Lewis, President of
LCG*

Through the Schedule Program, GSA increases contracting opportunities for small businesses and assists buyers in achieving or exceeding their socioeconomic goals. Additionally, many GSA projects have targeted outreach specifically for minority/women-owned small businesses. By engaging with LCG, majority-owned firms can gain a competitive advantage, thereby increasing their opportunity to secure contracts that require participation with Minority Owned Businesses.

“Lewis Consulting Group has built our reputation on understanding the needs of our clients, conducting environmental investigations, and delivering quality and competitively priced services in a timely manner. Since our founding in 2012, this has been and remains our commitment on behalf of our clients.” - [Zachary Lewis](#), President of LCG.
