

Puretalk.ai announces availability of TTS+ for Reading

Available immediately on [Speechki.org](https://speechki.org)

NEW YORK, NEW YORK, USA, March 22, 2023 /EINPresswire.com/ -- Today [Puretalk.ai](https://puretalk.ai) announced the immediate availability of TTS+® for Reading, creating audio books, audio blogs, podcasts, reading newspaper articles, and more. TTS+® for Reading enabling users to hear humanized reading with contextual voice changes, emotion, and personality. TTS+® for Reading is available immediately to convert text to speech at [Speechki.org/puretalk](https://speechki.org/puretalk), who has already produced over 1,000 audiobooks on their ground-breaking platform for authors who want to convert their books to audiobooks at <https://speechki.org/puretalk>. Puretalk.ai can also clone author's or celebrity's voices for the TTS+® platform.

"What Puretalk.ai has accomplished is very impressive," said Dima Abromov, CEO and Founder of [Speechki.org](https://speechki.org). "We think TTS+® for Reading will be a great addition to our Text to Audio platform for creating audiobooks."

Not just for reading

In addition to Performance TTS+®, Puretalk.ai will be coming out shortly with TTS+® for Conversations, and its RUTH® natural language understanding GPT Generative AI technology in 2023.

For More Information on [Speechki.org](https://speechki.org)

[Speechki](https://speechki.org) is an audiobook recording platform to scale publishers' audiobook inventories by several times using synthetic voices. We do for audiobook production what Ford did for car manufacturing. For more information contact Sergey Garanov at serj@speechki.org.

For More Information on [Puretalk.ai](https://puretalk.ai)

[Puretalk.ai](https://puretalk.ai) offers a contextually aware set of voice cloning and natural language understanding tools, [Puretalk.ai](https://puretalk.ai) brings new possibilities to developers, enterprises, and integrators. Whether a company needs a humanized voice for audiobooks, podcasts, contact-centers, improving conversational workflows, or building conversational-AI applications, the [Puretalk.ai](https://puretalk.ai) platform brings a new level of humanizing computers to human communications.
