- Crown Electric Ships and Boats Dubai

electric vessel designed by Crown

23 2023:

Crown Electric Ships and Boats Dubai is a leading provider of electric vessels. The company has recently launched the BELUGA, a cutting-edge electric yacht designed by Crown. The BELUGA is a 10-meter long vessel with a maximum speed of 7.3 knots and a range of 23.9 nautical miles. It is powered by a lithium-ion battery system and features a range of amenities including a sunbather, swim platform, and a large canopy. The BELUGA is designed for both day and night cruising and is suitable for a variety of occasions. Crown Electric Ships and Boats Dubai is committed to providing the highest quality electric vessels and services. For more information, please contact Crown Electric Ships and Boats Dubai at info@crowneyachts.com or visit our website at www.crowneyachts.com. IDEX/NAVDEX 2023 is a leading industry event and Crown Electric Ships and Boats Dubai is proud to be a sponsor. The event will showcase the latest in marine technology and provide an excellent opportunity for industry professionals to network and learn. Crown Electric Ships and Boats Dubai is excited to participate in IDEX/NAVDEX 2023 and look forward to meeting with you. For more information, please contact Crown Electric Ships and Boats Dubai at info@crowneyachts.com or visit our website at www.crowneyachts.com.
