[Trending HR Advisory Services Market Trend](#)

Organizations across the globe are focusing on creating a digital workplace using cloud services

and AI, which is gaining significant popularity in the HR advisory market. The digital workplace is a modern concept using digital transformation to align technology to achieve organizational goals with operational efficiency. Cloud services and artificial intelligence (AI) are critical components of the digital workplace, assisting in the removal of geographic barriers for improved collaboration, increasing productivity and employee engagement, improving decision making, and optimizing costs. For instance, according to The Future of Jobs Report 2020, published by the World Economic Forum, AI is expected to replace 85 million jobs globally by 2025.
