“

4i apps supports its customers throughout their Oracle Cloud journey with quickly business value and RoI delivery.”

Arun Kumar Singh – Sr. Research Manager and Principal Analyst, ISG

Being placed in the Oracle Ecosystem Quadrants for three different services - Implementation and Integration, Consulting and Advisory, and Managed Services - is a significant accomplishment that 4i apps takes great pride in.

ISG has evaluated 4i apps based on its strong presence in the Cloud migration services, application modernization, and industry-specific solutions provided to customers. 4i apps has also been assessed based on industry, functional

and technology expertise.

4i apps' sweet spot is the mid-market enterprise segment. With outstanding technical skills and

industry expertise, it helps address the segment's implementation, technical, and business challenges with cloud migration and migrate on-premises workloads to Oracle Cloud.

- On-premises to cloud migration expertise: 4i apps eases out the cloud migration process for mid-market enterprises without substantial efforts in configuration, integration, and business process changes, resulting in reduced costs, high performance, and quick time to market.

- Industry-specific expertise: 4i apps has strong industry-specific expertise in the real estate, construction, public, manufacturing and distribution sectors. Its established clientele in the Middle East with Oracle expertise creates a strong delivery foundation for the U.S. clientele.

- Pre-built solutions: Leveraging Oracle PaaS and APEX platforms, 4i apps has developed in-house solutions, such as PRISM (property management),

SUBCON (sub-contractor management), BFM (bank facilities management), and FOURAI suite of products (CRM, incident management, real-time asset tracking and HRMS applications), to address the niche business needs of mid-market enterprises.

- Oracle license optimization: 4i apps helps enterprises struggling to comply with Oracle license audits by providing license consulting, migration services and reselling.

- Efficiency through automation: The provider leverages AI and automation for data migration, invoice processing, supplier management, testing and digital assistant.

4i apps will continue to help clients adopt a cloud-first strategy and improve performance, cost savings and scalability through Oracle solutions.

"The ISG Provider Lens™ Report on Oracle Ecosystem is a prestigious recognition of the top-performing companies, and being placed in one of the quadrants is clearly a testament to our
