

Automatic Dog Feeder Market Size Is Registering a CAGR of 8.0 % from 2021 to 2030

Asia-Pacific region would exhibit the highest CAGR of 9.7% during 2021-2030.

PORTLAND, OREGON, UNITED STATES, March 23, 2023 /EINPresswire.com/ -- The [automatic dog feeder market](#) size was valued at \$344.6 million in 2020, and is projected reach \$998.7 million by 2030, registering a CAGR of 8.0 % from 2021 to 2030.

New dog feeding products such as smart automatic dog feeders are being introduced in the automatic dog feeder industry and are likely to shape the automatic dog feeder market in the coming years

Automatic dog feeder helps the owners to feed their hungry dogs on time. In addition, this machine can be a traditional or a smart one, both are efficient in dispensing food into the bowl when detected empty, which keeps the dog healthy owing to the proper feeding even in the absence of the dog owner.

Growth in working population is a leading reason for high rise in demand for automatic dog feeders in the market. There is a growing awareness regarding the proper feeding of the pet is equally essential, which is increasing with the increasing of pet humanization. According to the U.S. bureau of labor statistics there are 147.7 million of people which comes under working forces and are aged 16 years and over, where the 46.8% is the share of women working as the work force. Thus, growth of working population including both men and women has led to the shortage of care taker at home for pets. Therefore, the demand for smart gadgets or devices is rising, which can bring ease in the regular fast life, thus propelling the automatic dog feeder market.

Increased employment rates are a major factor in the market's increased demand for automatic dog feeds. As pets become more humanized, there is a growing understanding that providing good nutrition for them is also important. According to the U.S. Bureau of Labor Statistics, there are 147.7 million persons who are 16 years of age or older and are employed, with women making up 46.8% of the labor force. As a result, there is an increasing need for smart products that may make daily living easier, which is driving the market for automatic dog feeders.
