

Water Dispenser Market is estimated to be US\$ 6.8 billion by 2032; Rising Demand for Safe Drinking-By PMI

The report "Water Dispenser Market, By Type , By Application, and By Region - Trends, Analysis and Forecast till 2032"

COVINA, CALIFORNIA, UNITED STATES,
March 24, 2023 /EINPresswire.com/ --

[Water Dispenser](#) is a machine that dispenses and also heat or cool up water with refrigeration unit and commonly located near restroom due to closer access to plumbing. A drain line is also provided from water cooler into sewer system in water dispenser. Water Dispenser filtered water provides benefits such as skin hydration, detoxification, digestion, nutrient absorption and help in reduction of lead and chlorine in water.

Water Dispenser Market-PMI

Increasing scarcity of drinking water in several regions has become the positive impact on target market growth. Further, rising demand for safe and clean drinking water result in increased product sales, availability of various products, growing technological advancement which in turn, facilitate the Water Dispenser market growth.

The report "Water Dispenser Market, By Type (Bottled Water Cooler and Cooler Connected to the Mains), By Application (Residential and Commercial), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2032"

Key Highlights:

- In October 2022, Usha launched one-step water solution with “Laguna Fresh Water Dispenser” series suitable for all spaces which includes, semi-commercial, residential, workplace cafeterias, offices, shopping malls and others. Newly launched product is eco-friendly and convenient for users. New product series includes, Usha Laguna Fresh-Sensor, Usha Laguna Fresh Floor Standing with Cooling Cabinet (FSCC), and Usha Laguna Fresh-Floor Standing (FS).

Analyst View:

The key factor driving the growth of the Water Dispenser market is rising awareness about health concern due to rise in water pollution. Further, rising economic status with high disposable income which result in purchasing power of consumers, low maintenance cost of water dispenser compared to water filters is expected to boost the demand for Water Dispenser market growth over the forecast period. As a result, market competition is intensifying, and both big international corporations and start-ups are vying to establish position in the market.
