Radar Global Market Report 2023 : Market Size,
Trends, And Global Forecast 2023-2032

The Business Research Company's "Radar Global Market Report 2023" is a comprehensive source of information that covers every facet of the radar market. As per TBRC's radar market forecast, the [radar market size](#) is expected to grow to \$45.55 billion in 2027 at a compound annual growth rate (CAGR) of 6.5%.

An increase in seaborne trade globally propels the growth of the radar market. North America is expected to hold the largest radar market share. Major players in the radar market include Lockheed Martin Corporation, BAE Systems, Saab Group, L-3 Communications Holdings, Northrop Grumman Corporation, Dassault Aviation.

Trending Radar Market Trend

Technological innovation is a key trend gaining popularity in the radar market. Radars are used today to detect and track aircraft, spacecraft, ships at sea, and insects and birds in the air. The market is witnessing the demand for active electronically scanned array (AESA) radar systems because of their superior target power, spatial resolution, and robustness compared to conventional radars. AESA is a fully active radar array that consists of multiple antennas, each with its phase and gains control. Major companies engaged in the radar market are focused on technological innovation to sustain their marketplace. For instance, in September 2021, Raytheon Intelligence & Space, a US-based aerospace and defense company, launched a new

lightweight AESA radar for any platform. It combines the power of a heavyweight AESA fire control radar with a minor possible form factor. This radar combines the power of Gallium Nitride technology with an intelligent packaging of its digital receiver/exciter and processor with a unique air-cooled design to deliver Gen 4-plus performance.

Radar Market Segments

- By Type: Detection And Search, Targeting Radars, Weather Sensing Radars, Navigational Radars, Mapping Radars, Other Types
- By Component: Antenna, Transmitter, Receiver, Other Components
- By Range: Long, Medium, Short
- By End Use: Military, Aviation, Weather Forecast, Ground Traffic Control, Others End Uses
- By Geography: The global radar global market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Radar refers to a system that emits radio waves and processes their reflections for display. Radar devices are synchronized with radio transmitters and receivers, mainly used for detecting and locating objects. It has an electromagnetic sensor that detects, finds, tracks, and recognizes objects in the atmosphere, such as aircraft, spacecraft, ships, insects, and birds.

Radar Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Radar Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights on radar global market size, drivers and trends, radar global market major players, competitors' revenues, market positioning, and radar global market growth across geographies. The radar global market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
