/EINPresswire.com/ -- Nub TV is mad mix of UFOs and the paranormal and the best new music.

It's like Waynes World meets The X Files! Each episode explores the world of the paranormal with special guests

including Nick Pope (ex UK governments head of UFO investigations), Seth Shostak (from Ancient Aliens) & spoon bending psychic Uri Geller who talks about John Lennon's Ufo experiences! It's like Waynes World Meets The X Files!”

They try to contact the recently deceased Queen of England on a ouija board and they even have an encounter with the real life men in black who at one point manage to

shutdown the show and take them off air!

The show features the best new indie sounds from the US and Uk including Kick Pistol, Determinated, The Low Countries, bicycle and Kill The Giants.

The show also delves into the supposed death of Crop Circles as well The Montauk Project which is said to have inspired hit Netflix show Stranger Things! It's weird, wonderful and slightly ramshackle a bit like a 1990's MTV style show. It goes all the way to eleven!!

The I newspaper said:

Mark & Guy form Nub TV

"It's a bizarre mix of the paranormal and music." " pushing the boundaries of the paranormal."

The show 's first 2 series gained rave reviews and are now available online on the Tubi network in the US and Canada.
