Sports equipment are utility devices or tools useful for engaging in sports activities. Similarly, sports apparel is useful for boosting the sports performance with required comfort. However, consumers are actively wearing sports apparel during non-sports hours. This report is an in-depth study of the sports equipment and apparel market consumed across different types of sports activities. On the basis of outdoor activities, the market is divided into hiking; winter & water sports; team games such as football, volleyball, & basketball; and racket sports such as tennis, squash, & others.

Increase in health awareness among consumers and rapid rise in per capita disposable income are expected to boost the demand for sports equipment and apparels market. In addition, increase in demand for sports apparel among young sports enthusiasts and advancements in formulation of sports equipment fuel the Europe sports equipment & apparel market growth.

However, decline in participation of the young generation in sports activity hampers the market growth. Moreover, increase in interest of consumers in leisure activities other than sports such as movies, musical concerts, virtual gaming, and others restrains the growth of the Europe sports equipment & apparel market. Conversely, increase in participation of various organizations in donation of these equipment and apparel to emerging sports enthusiasts and athletes with poor financial background is anticipated to provide lucrative opportunities for the market growth. For instance, Sports Gift, Let's Play It Forward, Europe Sports Foundation, and One World Play Project are some of the well-known organizations that support the sports equipment donation process. Thus, rise in distribution of sports equipment and apparel through online retail platform is anticipated to boost the market growth in the near future.
