

# PurePath Tech Launches Advanced Equipment For Waste Oil Recycling

*PurePath Tech is on a mission to help businesses reduce their environmental footprint.*

CHONGQING CITY, CHONGQING, CHINA, March 26, 2023 /EINPresswire.com/ -- As the world continues to focus on environmental sustainability, more and more businesses are seeking innovative solutions to reduce their environmental footprint. Waste oil recycling is a key component of this effort, and Chongqing Purepath Green Technology Co.,LTD. (The following is referred to as PurePath or PurePath Tech) is proud to offer advanced technology and equipment [waste oil distillation plant](#) to support the recycling of waste engine oil and waste lube oil.

PurePath Tech is a leading provider of waste oil recycling plant/machine/equipment design, build, manufacturing, and sales. The company specializes in developing custom solutions that meet the unique needs of each client. The technology and equipment designed and produced by PurePath are designed to recycle waste oil into base oil or diesel fuel, reducing the amount of waste that ends up in landfills and preventing oil from contaminating the environment.

"Our mission at PurePath Tech is to help businesses reduce their environmental impact while also saving money," said Jacky Lau, Manager of PurePath Tech. "Our [used oil recycling plant](#) is designed to be efficient, eco-friendly, and cost-effective, helping businesses not only protect the environment but also improve their bottom line."

The process of recycling [waste engine oil to diesel](#) or waste lube oil into base oil is a complex process that requires specialized equipment and expertise. PurePath's state-of-the-art technology and equipment make the process simple and efficient, ensuring that the resulting Group II base oil or EURO V diesel fuel is of the highest quality of sulfur content, viscosity, flash point, and color, and other standards.

"We are committed to providing our clients with the most innovative and effective waste oil recycling equipment available," said William Chen, CEO of PurePath Tech. "Our team of experts has years of experience in designing and building custom recycling solutions, and we are confident that we can meet the unique needs of businesses across a range of industries."

PurePath Tech is proud to be at the forefront of the waste oil recycling industry and is dedicated to helping businesses across all around the world and beyond reduce their environmental footprint. The design, production and sales of desulfurization plant is also one of our main

businesses. To learn more about their used oil recycling plant, please visit PurePath Tech.
