Artificial Intelligence Chip Global Market Report 2023  
: Market Size, Trends, And Global Forecast 2023-2032

The Business Research Company's "Artificial Intelligence Chip Global Market Report 2023" is a comprehensive source of information that covers every facet of the artificial intelligence chip market. As per TBRC's artificial intelligence chip market forecast, the [artificial intelligence chip market size](#) is expected to grow to \$88.85 billion in 2027 at a CAGR of 39.8%.

The growth in the artificial intelligence chip market is due to an increase in demand for smart homes and smart cities. North America region is expected to hold the largest artificial intelligence chip market share. Major players in the artificial intelligence chip market include Intel Corporation, Mediatek Inc., NVIDIA Corporation, Qualcomm Technologies Inc., Advanced Micro Devices Inc.

Trending Artificial Intelligence Chip Market Trend

Technological advancement is a key trend gaining popularity in the artificial intelligence chip global market. Major companies in the artificial intelligence chip global market are advancing in their new technologies and research and developments in the artificial intelligence chip market, such as the NVIDIA A100 chips to streamline AI training and inference and improve efficiency.

## Artificial Intelligence Chip Market Segments

- By Chip Type: GPU, ASIC, FPGA, CPU, Other Chip Types
- By Processing Type: Edge, Cloud
- By Technology: System-On-Chip (SoC), System-In-Package (SIP), Multi-Chip Module, Other Technologies
- By Application: Natural Language Processing (NLP), Robotics, Computer Vision, Network Security, Other Applications
- By Industry: Media and Advertising, BFSI, IT and Telecom, Retail, Healthcare, Automotive and Transportation, Other Industries
- By Geography: The global artificial intelligence chip market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Read more on the global artificial intelligence chip market report at:

<https://www.thebusinessresearchcompany.com/report/artificial-intelligence-chip-global-market-report>

Artificial intelligence chips are specific computer chips designed to achieve high efficiency and speed for computations related to AI at the expense of low efficiency and speed for other calculations and that is used for assisting clients in obtaining business insights at scale across banking, finance, trading, insurance applications, and client engagements.

Artificial Intelligence Chip Global Market Report 2023 from TBRC covers the following information:

- Market size data for the forecast period: Historical and Future
- Market analysis by region: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.
- Market analysis by countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

Trends, opportunities, strategies and so much more.

The Artificial Intelligence Chip Global Market Report 2023 by The Business Research Company is the most comprehensive report that provides insights and artificial intelligence chip global market analysis on artificial intelligence chip global market size, drivers and trends, artificial intelligence chip industry major players, artificial intelligence chip global market share and competitors' revenues, market positioning, and artificial intelligence chip global market growth across geographies. The artificial intelligence chip global market report helps you gain in-depth insights on opportunities and strategies. Companies can leverage the data in the report and tap into segments with the highest growth potential.
