The Company's Institutional Unit reported EBITDA of \$41 million, a % 5.6 improvement even though contracts decreased compared to the same quarter last year. "Glenbrook Advisory continues in its efforts to develop its services on all sectors of management including Institutional and Retail investment." Archie Brook, Managing Director added "A positive shift in operational services and cost reduction contributed to overall growth. The recent liquidity stress brought on by the Ukraine conflict saw a decline in Institutional activity, however this was offset by exponential growth in the retail sector."

Glenbrook Advisory's management anticipates next quarters (Q1, 2023) earnings to be nearer to targeted growth levels 1% for Institutional division to 2% to 4% for retail account Holders.
