India Retort Pouches Market Report Analysis by IMARC Group

to kill bacteria and other microorganisms and extend the shelf life of the products. They are widely used in the packaging of ready-to-eat (RTE) meals, soups, sauces, and other edible products that require long-term storage without refrigeration. Retort pouches are lightweight, easy to transport, and offer convenience to consumers who prefer quick and easy meal solutions.

India Retort Pouches Market Demand, Trends and Growth Drivers

The increasing demand for packaged food products represents a significant factor driving the market growth across India. In addition to this, retort pouches are an ideal packaging solution for these products as they provide a lightweight, easy-to-use, and cost-effective packaging option, thus driving the market growth. In line with this, changing consumer preferences toward convenient and ready-to-eat meals, and the need for a longer shelf life of food products are contributing to the growth of the market. The government's initiatives to promote food processing industries and the widespread adoption of advanced technologies in the food packaging industry are further driving the growth of the market in India. Apart from this, the increasing number of working professionals, rapid urbanization and rising disposable incomes are also contributing to the demand for retort pouches in India.
