Increase in adoption of IoT & BYOD trend and rise in malware and phishing threats among organizations drive the growth of the global malware analysis market. On the other hand, complexities in devices impede the growth to some extent. Nevertheless, surge in adoption of mobile device applications and platforms is anticipated to pave the way for multiple opportunities in the industry.

The global malware analysis market is analyzed across component, deployment mode, organization size, industry vertical, and region. Based on component, the solution segment accounted for nearly three-fourths of the total market share in 2018, and is anticipated to lead the trail by the end of 2026. The service segment, on the other hand, would portray the fastest CAGR of 30.7% from 2019 to 2026.

Enquiry Before Buying: <https://www.alliedmarketresearch.com/purchase-enquiry/6328>

The large enterprise segment dominated the malware analysis market industry in 2018 and is projected to maintain its dominance during the forecast period, owing to its adoption for managing security operations and to safeguard practices such as standards compliance, patch management, and change in policies periodically. Furthermore, the SMEs segment is expected to experience growth at a significant CAGR during the forecast period, due to the rise in cyber-attacks on small and medium enterprises.

Based on deployment mode, the cloud segment garnered the major share in 2018, holding more than half of the global market. At the same time, the on-premise segment would manifest the largest CAGR of 30.7% throughout the study period.

Based on region, North America contributed to nearly one-third of the total market revenue in 2018, and is projected to lead the trail by 2026. Simultaneously, the region across Asia-Pacific would grow at the fastest CAGR of 27.0% throughout the forecast period.

The key market players analyzed in the global malware analysis market report include Palo Alto Networks, Inc., Sophos Group, Symantec Corporation, Fortinet Inc., Trend Micro and FireEye, Inc. Qualys Inc., Kaspersky Lab, McAfee LLC, and Cisco Systems Inc. These market players have taken recourse to several strategies including partnership, expansion, collaboration, joint ventures, and others to prove their flair in the industry.
