

Canary Technologies Partners with WebRezPro To Provide Full-Stack Digital Management Resources to Hoteliers

Guest management and property management technology companies launch new integration, improve the guest experience and operations with modern software solutions

SAN FRANCISCO, CALIFORNIA, UNITED

STATES, March 29, 2023 /EINPresswire.com/ -- [Canary Technologies](#), the hospitality industry's leading guest management system, is partnering with [WebRezPro](#), an award-winning cloud property management system to seamlessly provide Canary's #1-rated platform to WebRezPro customers.

“

This integration will help eliminate paper, drive additional revenue, and enable hotel teams to spend more time creating great experiences for guests and less time dealing with administrative tasks.”

SJ Sawhney, Principal and Co-Founder of Canary Technologies

This new partnership enables WebRezPro customers to easily add Canary's powerful hotel guest management solutions to their existing technology stack. Combining the two systems allows hoteliers to operate more efficiently, boost guest satisfaction scores, and increase revenue thanks to a new two-way integration between the platforms.

Through the integration, reservation information is seamlessly and securely shared between the two systems to automate Check-In, Checkout, Upselling, Guest Messaging, Digital Tipping, and Credit Card Authorizations.

“We're pleased to be able to bring our clients the benefits of this powerful two-way integration with Canary,” said Frank Verhagen, President and Founder of WebRezPro. “This valued partnership helps us put innovative digital tools in the hands of lodging operators so that they can automate workflows, elevate the guest experience, and generate more revenue simply and seamlessly.”

“We’re very excited to team up with WebRezPro to provide the best possible technology to hoteliers that helps them improve the way they and their staff members work,” said SJ Sawhney, Principal and Co-Founder of Canary Technologies. “Technology is a key tool for hoteliers seeking to streamline their operations. This integration will help eliminate paper, drive additional revenue, and enable hotel teams to spend more time creating great experiences for guests and less time dealing with administrative tasks.”
