The growth in the modular robotics global market is due to increasing adoption of robots in the electronics and automotive industries. Asia-Pacific region is expected to hold the largest modular robotics global market share. Major players in the modular robotics global market include Mitsubishi Electric Corporation, Yaskawa Electric Corporation, Kawasaki Heavy Industries Limited, Universal Robots, DENSO Corporation, Rethink Robotics GmbH.

[Modular Robotics Global Market Segments](#)

- By Product Type: SCARA Modular Robots, Articulated Modular Robots, Cartesian Modular Robots, Parallel Modular Robots, Other Robots
- By Hardware Design: Chain-based, Lattice-based, Strut-based

- By Configuration: Auto-Configuration, Manual Configuration
- By End Use Industry: Automotive, Electronics and Electrical, Chemical, Food and Beverages, Pharmaceutical, and Other End Use Industries
- By Geography: The global modular robotics global market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Modular robotics refers to robots designed with parts that can be reconfigured to assume different shapes and functions. These robots have the capability of reconfiguring their shapes autonomously in many cases and adapting to new circumstances, performing new tasks, or recovering from damage beyond the conventional actuation, sensing, and control typically found in fixed-morphology robots.
