

Global Application Container Market Research Report | Industry Trends & Size USD 8.202 Billion by 2025

Rise in popularity of application container technology over virtual machines & adoption of cloud based computing system contribute towards market growth.

PORTLAND, PORTLAND, OR, UNITED STATES, March 29, 2023

/EINPresswire.com/ -- According to the report published by Allied Market Research, the global [application container market](#) was estimated at \$698 million in 2016 and is anticipated to hit \$8.20 billion by 2025, registering a CAGR of 31.8% from 2018 to 2025. The report provides a detailed analysis of the top investment pockets, top winning stratagems, drivers & opportunities, market size & estimations, competitive landscape, and fluctuating market trends.

The surge in popularity of application container technology over virtual machines and rise in the adoption of cloud-based computing systems in organizations drive the growth of the global application container market. At the same time, security risks associated with the application container technology impede the growth to a certain extent. Nevertheless, the surge in the trend of taking recourse to the Internet of Things (IoT) among end-users is expected to create an array of opportunities in the near future.
